

APPENDIX C VOCABULARY

Abandonment

Abdomen

Abduction

Abortion - miscarriage

Abrasion

Abrasions

Acetabulum

Acid-base balance

Acidosis

Acromion

Active transport

Adduction

Administration

Adrenal gland

Advance Directives

AED

Aerobic Metabolism

Afterload

Agonal respirations

Agonal

Agonist

AIDS

Air borne pathogens

Airborne Transmission

Airway Adjuncts

Alimentary Tract

Alkalosis

Allergen

Allergic Reactions -

Alveolar ducts

Alveolar sacs

Alveolar

Ambient

Americans with Disabilities Act (ADA)

Amniotic sac

Amputations

Anaerobic Metabolism

Anaphylactic Shock

Anaphylaxis

Anatomical Terms

Anemic

Angulation

Anions

Anoxia

Antagonist

Anterior

Antibody

Aorta

Aortic

APCOR radio system

Apex

Apneic

Arachnoid

Arrhythmias

Arteries

Arteriole

Artery

Articulation

Ascites

Assault

Assault

Asymmetrical

Atherosclerosis

Atrium

Auscultate

Auscultation

Automaticity

Autonomic nervous system

Autonomic release

AV node

Avulsion

Axial Skeleton

Axillary

Baroreceptor

Base station

Baseline vital signs

Battery

Battle's sign

Behavior

Behavioral emergency

Beta agonist

Bicuspid

Bilateral periorbital ecchymosis

Bilaterally

Biotransformation

Biots

Birth Canal

Blood pressure

Blood/Body fluids transmission

Bloodborne and airborne pathogens

Bloody Show

Bolus

Body substance isolation (BSI) (Bio-Hazard)

Brachial

Bradycardia

Bradypnea

Breach of the duty

Breech birth

Bronchi

Bronchial tree

Bronchioles

Bronchospasm

BSI / universal precautions

Buffer system

Burn centers

BVM

Calcaneus

Cancellous bone

Capillaries

Capillary refill time (CRT)

Capillary

Carbon monoxide poisoning

Carbonaceous

Carboxic Drive

Cardiac output

Cardiac Technician

Cardiac Tamponade

Cardiac Muscle

Cardiac Tamponade

Cardiogenic Shock

Cardiovascular

Carina

Carotid

Carpals

Cartilage

Cations

Caudad

CDC

Cell

Cellular telephones

Central nervous system

Cephalad

Cerebellum

Cerebral hemisphere

Certification

Cervical

Cheyne Stokes

Chickenpox

Civil Immunity

Clavicle

Clonic Seizures

Coagulation

Coccyx

Code of Conduct

Communuted

Compartment syndrome

Conception

Conduction

Confidentiality

Congenital

Conjunctiva

Constricted

Contact Transmission

Contamination

Continuous quality improvement

Contractile

Contraindication -

Contusions

Convection

Coronary arteries

Craniad

Cranium

Crepitation

Crepitus

Cricoid ring

Cricoid cartilage

Cricothyroid membrane

Crime scene

Critical incident stress management

Critical incident stress debriefing (CISD)

Crowing respirations

Crowning

CRT

CTCSS

Cumulative Action

Cyanotic

Cyanotic color

DCAPBTLS

Decontamination

Definitive care phase

Deformity

Dehydration

Depressant

Dermis

Detailed assessment.

Diabetes mellitus

Diabetic ketoacidosis

Diagnostic signs

Diaphoresis

Diaphragm

Diaphragmatic injury

Diaphysis

Diastolic

Diffusion

Digital radio

Digitalis

Dilated

Direct pressure

Disentangle

Disinfection

Distal

Do Not Resuscitate (DNR) orders

Documentation

Doll's eye response

Dorsal

Dorsalis pedis

Dose

Due regard

Dura mater

Durable Power of Attorney

Duty to act

Dysconjugate gaze

Dyspnea

Ecchymosis

Eclampsia

Elevation

Elixirs

Emancipation

Emergency Medical Technician
